OBJECTIVE

Bachelor of Computer Applications (BCA) student with a strong foundation in programming, software development, and database management. Proficient in HTML, CSS, and JavaScript with a proven ability to quickly learn and adapt to new technologies. Actively seeking opportunities to gain hands-on experience and further develop technical expertise in the IT field while contributing to impactful projects.

PROJECT

Taskventure | *HTML, CSS, JavaScript, PHP, MySQL*

Gamified Task Management

- Created a gamified task management system that helps users keep track of their tasks and level up based on their points.
- The concept of gamified task management in TaskVenture transforms everyday tasks into engaging ventures, making productivity more interactive and enjoyable.

Swap2slay | *JavaScript, PHP, MySQL, CSS, HTML*

Fashion Rental E-Store

- Created an E-commerce C2C platform which helps student to rent apparels and accessories easily.
 - It promotes eco-friendly fashion by reducing textile waste and encouraging reuse.
 - The platform ensures a seamless user experience with a variety of trendy options for both men and women.
-
